Proceedings of the Chief Commissioner of Mysore, Judicial Department, 29th November 1878.

READ—

Letter No. 2580—234, dated 25th October 1878, from the Judicial Commissioner of Mysore.

No. 6495—JUDL. 139, DATED BANGALORE, 16TH NOVEMBER 1878.

ORDER.—Under the provisions of section 338 of the Code of Civil Procedure, (Act X of 1877,) the Chief Commissioner prescribes the following scale of allowances payable for the subsistence of judgment-debtors in this Province :—

		Per Diem. Rs.	A.	P.	Per Mensem. Rs.	A.	P.
1. For Natives in ordinary circumstances		0	3	0	5	10	0
2. For Natives of the better classes	from	0	4	0	7	8	0
	to	0	8	0	15	0	0
3. For Europeans and Eurasians		0	8	0	15	0	0

The allowance for Europeans and Eurasians, as prescribed above, is the *maximum* rate, and it will be at the discretion of the Court to fix such rate within that limit as in each case may be deemed suitable and sufficient.

T. CLARKE,
Secretary.

To—The Judicial Commissioner.

From the Secretary to Government of Bombay, Political Department, To the Chief Commissioner, Mysore, No. 5160, dated Bombay Castle, 13th November 1878.

I am directed to acknowledge the receipt of your Secretary's letter No. 3460—G. 20, dated 6th August last, inviting attention to the suggestion contained in para 14 of the letter from the Government of India, Foreign Department, No. 84 J. of the 25th June 1878 thereto annexed, namely, that if sections 229, 434 and 391 of the Civil Procedure Code were supplemented by the issue of an executive order to officers in British India directing the service of Mysore summons, a considerable measure of reciprocity in the matter of civil process would have been obtained for the Mysore Courts.

2. In reply, I am directed to forward to you herewith copy of a letter from Her Majesty's High Court of Judicature, Bombay, No. 1294, dated the 4th ultimo, and to state that the Political Agent, Southern Mahratta Country, and the Political Agent, Dharwar, have been instructed to issue orders directing that all summons issuing from Mysore Courts should be served by the courts subordinate to them.

From the Registrar, High Court, Appellate Side, Bombay, To the Secretary to Government, Judicial Department, Bombay, No. 1294, dated Bombay, 4th October 1878.

I have the honor, by the direction of the Honorable the Chief Justice and Judges of Her Majesty's High Court of Judicature, to acknowledge the receipt of your letter No 5519, dated the 23rd ultimo, and of its enclosures, and in reply to state that the Courts subordinate to the High Court do not require the assistance of the Mysore Courts to execute their processes, which are, and can only be, served in the manner prescribed in sections 89 and 90 of Act X of 1877.

Such being the case, the Honorable the Chief Justice and Judges consider that the question is not one of reciprocity as supposed by the Government of India. But their Lordships are ready to direct the subordinate courts to serve such processes as are necessary to inform defendants of proceedings taken against them in the Mysore Courts (which courts, their Lordships understand to have been established by the authority of His Excellency the Governor General in Council), because by section 229 of the Code, the Courts in British India are bound to execute the decrees of the Mysore Courts, and it is therefore proper that they should render such assistance as will secure the administration of justice by those courts.

The High Court has therefore directed the courts subordinate to it to serve summonses on defendants which may be received from the Mysore Courts in the same manner in which they would serve such summonses issued by themselves. It is not necessary to make any order in regard to summonses to witnesses, because witnesses can only properly be examined by commission under the provisions of section 391 of the Code.

There will be no objection to processes of the nature above indicated being forwarded to the courts subordinate to the High Court by post, but it will generally be necessary that some person on behalf of the plaintiff should attend to point out the defendant to the bailiff entrusted with the execution of the process.

No. 7107—JUDL. 145, DATED BANGALORE, 29TH NOVEMBER 1878.

ORDER.—Ordered, that the above letters be forwarded to the Judicial Commissioner for communication to all Civil Courts in Mysore, in continuation of the Chief Commissioner's Proceedings No. 3072—J. 7, dated 23rd July 1878.

T. CLARKE,
Secretary.

Proceedings of the Chief Commissioner of Mysore, Department of Revenue, Agriculture and Commerce, 7th November 1878.

READ—

The marginally noted dockets from the Commissioners of Divisions, submitting Reports and Statements relative to the administration of Excise Revenue during 1877—78.

From the Commissioner, Nundydroog, No. 152, dated 20th Sept. 1878.
Do Ashtagram „ 511—14, dated 10th Oct. 1878.
Do Nagar „ 490—99, dated 18th Sept. 1878.

No. 6210—REV. 44, DATED 7TH NOVEMBER 1878.

ORDER THEREON.—The following discrepancies have been observed on a comparison of the statements referred to above with the Report and the Annual (Abkari) Statement Class VI, No. 1, for 1877-78.

1. *Nundydroog Division.*—The revenue from opium was, in this Office Proceedings No. 9424—Rev. 41, dated 14th December 1876, directed to be shewn under "IV Excise" instead of under "Sayer," but the Commissioner of Nundydroog Division has included the sum of Rs. 815—15—6 (duty levied on opium) in the statement appended to para 15 of his Report under "Sayer."

2. In the Annual Statement Class VI, No. 1, the number of retail shops in the Bangalore District is shewn as 173, but in Statement No. 1 submitted by the Commissioner with his Excise Report, the number entered is 284. The difference requires explanation. The number of beer shops, for which licenses have been issued, is, it is presumed, not included in Statement No. 1.

3. Statement No. V shews Rs. 27,391—3—5 as realized on account of licenses issued in the Bangalore District, while the Report gives Rs. 7,269—11—5 only. The difference requires explanation. In the same statement the number of licenses—wholesale and retail—shewn against Kolar should, as particularized in Statement IV, be *196 instead of 174.

* Wholesale 22 } 196
Retail 174 }

4. *Ashtagram Division.*—There is a difference between the Annual Statement (Class VI, No. 1) and Excise Statement I, as regards the number of licenses issued in the Mysore District for the retail sale of arrack. The former gives 65 as the number and the latter 64.

5. Nothing is shewn in Excise Statement No. 1 on account of the revenue from ganja and opium in the Hassan District, while the Annual Statement gives Rs. 300 for ganja and 100 for opium. In the Report itself the total ganja revenue is incorrectly entered as Rs. 2,968—8—0, instead of Rs. 2,958—8—0; and the revenue derived from opium, *viz.*, Rs. 925—8—0, is omitted.

6. The opium revenue of the Mysore District is shewn in Statement VII as Rs. 3,184. This includes, it is presumed, Rs. 2,358—8—0 shewn in the Annual Report as realized from ganja alone.

7. Statement VI of the Hassan District gives no figures as to the consumption of wine or beer, and yet shews that 8 wholesale licenses were issued. This error perhaps is owing to the transfer of the information respecting arrack, given in Statement II.

8. *Nagar Division.*—The Annual Statement of the Nagar Division improperly includes under the head "Miscellaneous" the interest levied on arrears of license fees, &c. This item should in future be shewn in the Annual Statement Class VIII, No. 7.

9. Referring to the Excise Statement No. 1 submitted by the Commissioners of Nundydroog and Ashtagram, it is observed that the information respecting revenue realizations is confined to the heads "Spirits," "Wines" and "Drugs." As the form in question, as originally furnished, does not provide for the exhibition of collections from other sources such as license fees, &c., the attention of the Commissioners is invited to columns 7 to 13 of Statement I appended to this Office Proceedings No. 8943—43, dated 16th January last.

Proceedings of the Chief Commissioner of Mysore, Department of Revenue, Agriculture and Commerce, 7th November 1878.

READ—

Annual Reports of the Commissioners of Divisions on the administration of Excise Revenue for the year 1877—78.

No. 6199—REV. 43, DATED BANGALORE, 7TH NOVEMBER 1878.

ORDER THEREON.—The excise revenue of this Province is derived from "Abkari" and "Sayer," the former of which includes the revenue from arrack, beer, toddy, opium, ganja and majam, as also the license fees collected on account of wholesale and retail liquor shops.

2. The subjoined comparative statement gives the total receipts under the head "Abkari" for the years 1876—77 and 1877—78, shewing a net decrease in the latter of Rs. 1,43,464 :—

Items.	1876—77.	1877—78.	Increase.	Decrease.
Still head duty on arrack	4,31,985	3,62,627	...	69,358

Miscellaneous	782	1,083	291	...
Total...	11,69,599	10,26,135	291	1,43,755
			Net Decrease...	1,43,464

3. *Arrack.*—During the year under report, the Sadar Distillery system was in force throughout the Province except in the Mysore District, where the special arrangement referred to in para 3 of this Office Proceedings No. 8943—Rev. 45, dated 16th January 1878 was continued up to the close of 1877—78.

4. *Receipts from Arrack.*—The receipts under the head of "Still head duty" amounted to Rs. 3,62,627, as against Rs. 4,31,985 in the preceding year. The decrease of Rs. 69,358 is attributable to the diminished consumption on account of famine in all the Districts but Túmkúr, where there was a slight increase of Rs. 601—5—4. Compared with the previous year, the receipts from the levy of license fees exhibit a decrease of Rs. 10,882.

5. The quantity of liquor distilled and the revenue derived from the manufacture and sale of arrack during the year under report are given below :—

Districts.	No. of Distilleries.	Quantity distilled in gallons.	Degree of strength.	Rate of still head duty exclusive of local cess.	Amount realized.	No. of shops. Wholesale.	Retail.	Total.	Amount of fees levied on licenses for shops.

6. The Sadar Distillery at Shrinivaspur in the Kolar District having been abolished, the number of such distilleries in the Province was reduced to 10.

7. The total quantity of liquor issued was 1,38,094 gallons against 1,69,322 in the year previous. The decrease is attributable to the cause alluded to in para 4 above.

8. *Beer.*—Three breweries were in operation during the year in the Cantonment of Bangalore. The quantity consumed has fallen from 77,058 gallons in the preceding year to 38,448. The revenue has fallen to Rs. 9,612.

9. The number of beer shops has increased by 2, there being now 3 in the Cantonment of Bangalore, 2 in Shimoga, 3 in Kadur, and 1 in Chitaldroog.

10. *Toddy.*—As in the last year, this item continued to be leased out to contractors. But owing to the default of the contractors of five taluks of the Chitaldroog District and the consequent working of the farm by Government agency, the revenue has fallen by Rs. 50,783.

11. *Ganja.*—The revenue from this source amounted to Rs. 11,026 or Rs. 214 less than that of the previous year. This decrease has been in the Nagar Division where the sale of the monopoly right has ceased in accordance with the order quoted marginally, and the license fees collected on shops only.

No. 5,315—Rev. 38, dated 22nd October 1874.

12. *Opium.*—There has been a decrease of Rs. 330 under this head, owing to the diminution in the quantities exported and imported.

13. *Abkari—Miscellaneous.*—The increase of Rs. 291 under this head, which has occurred mainly in the Chitaldroog District, calls for no remark.

14. The total demand under the foregoing heads amounted to Rs. 10,26,135. Adding to this sum the balances outstanding on 31st March 1877, the gross demand amounted to Rs. 11,11,906. The collections aggregated Rs. 7,99,188, leaving a balance of Rs. 3,12,718. The whole of this amount is not recoverable, as successive bad seasons necessitated the grant of heavy remissions as yet unadjusted in the accounts.

15. *Charges.*—The charges of establishment, &c., in connection with the abkari revenue amounted to Rs. 18,133, which includes Rs. 817 on account of authorized payments to inamdars of whole villages.

16. *Sayer Duties.*—The sources of the revenue under this head remained unchanged. The articles and rates of duty are given in the margin.

1. Supari ... } 12 annas per maund.
2. Tobacco ... }
3. Cardamom .. 2 Rs. do
4. Cocoanuts, dry... 7½ annas do
5. Do fresh... 8 „ per 100.
6. Betel leaves ... 1 pie per bundle.

17. The collections amounted to 3,84,517 as against Rs. 4,83,640 in the year previous, shewing a net decrease, as particularized below, of Rs. 99,123.

Items.	1876—77.	1877—78.	Increase.	Decrease.
Supari or arecanut ...	3,36,586	2,83,394	...	53,192

Total...	4,83,640	3,84,517	3,890	1,03,013
			Net...	99,123

18. Excepting in the case of "Dry cocoanuts" all items exhibit a decrease in receipts. As in the last year the falling off has been most considerable under "Supari." In the Nagar Division there has been a marked decrease under this head, which the Commissioner attributes to the damage caused to the supari crop by the unseasonable rains of September and October, and further to the low prices and slack trade consequent on famine.

19. Excluding the miscellaneous realizations, Rs. 3,65,221 of the receipts represent the amount levied on goods exported to, and Rs. 16,027 that on imports from Her Majesty's Territories.

20. The payments made out of the Sayer revenue to inamdars, &c., amounted to Rs. 18,276.

21. *Charges.*—The charges on account of establishment amounted to Rs. 34,188, or 8·9 per cent of the total collections, as against Rs. 35,199 in the preceding year. The salary of the fixed establishment aggregated Rs. 30,936 and the allowance to Shekdars, Patels and Shanbhogs, Rs. 2,604.

22. Ordered; that a copy of these Proceedings be submitted to the Government of India, Financial Department, together with the Statements Nos. 1 to 8, as called for in Financial Department Circular No. 142, dated 12th January 1876.

Proceedings of the Chief Commissioner of Mysore, Department of Revenue, Agriculture and Commerce, 16th November 1878

READ—

Ashtagram Commissioner's letter No. 463—128, dated 20th September 1878, and its enclosures.

No. 6275—REV. 45, DATED BANGALORE, 11TH NOVEMBER 1878.

ORDER THEREON.—In modification of the provisions of para 2 of this Office Proceedings No. 1989—21, dated 18th July 1873, and with a view to facilitate the collection of public revenue, the Chief Commissioner resolves on empowering Assistant Commissioners in charge of Sub-Divisions of Districts to authorize at their discretion and without reference to the Deputy Commissioner the distraint and sale of movable property of defaulters in satisfaction of the Government demand for revenue, their proceedings in every such case being recorded in their Weekly Diaries and in accordance with clause 5 of the Rules published with Chief Commissioner's Notification No. 250, dated 1st December 1871, reported to the Deputy Commissioner of the District.

READ—

Letter No. 696, dated 27th June 1878, from the Survey and Settlement Commissioner of Mysore, submitting the explanation called for in this Office Proceedings No. 2061—36, dated 19th June 1878, in regard to the mode of assessment adopted in the case of irrigable lands not at present irrigated in the Banavar Taluk.

Order thereon, No. 4758—R. 102, dated Bangalore, 20th September 1878.

The Chief Commissioner observes that this Office Notification No. 102, dated 23rd June 1870, provides for the imposition of permanent rates of wet assessment when the occupant of dry land uses water from Government tanks and grows wet crops thereon. There will arise however cases of lands *ordinarily* cultivated with *dry* crops receiving only occasional irrigation, and on the other hand of lands *ordinarily* cultivated with *rice* but receiving only insufficient or occasional irrigation. Mr. Gordon considers that this distinction should be recognized and that lands of the former description might suitably be classed as dry and charged with additional water-cess in those years in which irrigation is available and is supplied. As regards wet lands, the supply of irrigation to which is uncertain, the water-cess might be imposed in accordance with the practice in the Madras Presidency and at the rates specified in the margin. The Chief Commissioner would wish however to be favored with the Survey Commissioner's views as to the practicability of applying these principles generally, as well as in respect of the lands which are at present under reference.

To—The Survey and Settlement Commissioner in Mysore.

From the Survey and Settlement Commissioner, Mysore, To the Secretary to the Chief Commissioner of Mysore, General Department, No. 1078, dated Poona, 26th September 1878.

With reference to Chief Commissioner's No. 4758—102 of the 20th instant, I have the honor to offer the following remarks.

2. Theoretically there is no doubt of the correctness of the plan of assessing water-rate as a temporary measure in the manner proposed by the Chief Commissioner's order, but practically I fear it would not be possible to work this plan especially in Mysore, since an annual inspection of the lands in question would be necessary which must be left to minor native officials.

3. The first case refers to land ordinarily cultivated with dry crops receiving occasional irrigation. Such land must necessarily be so situated as to be susceptible of receiving irrigation, and excepting the possibly short supply of water in some years, there is no reason whatever why such land should not be irrigated annually. The precariousness of the supply of water should be met by the lowness of the rate of water assessment, and not by putting the rate on one year and taking it off the next, a proceeding which must facilitate confusion and fraud.

4. Any field assessed and entered as dry crop found to be taking water without leave or applying to take it, should be, in the first case, charged an extra water-rate double that on adjacent lands for that year, as a penalty for taking water without leave, and ordered to disuse taking water unless he agreed to take it permanently on the same rates as those on adjacent lands; any one applying for permission to take water for certain land should be told that he can have it *if* he will take it permanently and pay the same rates as those on adjacent lands. The survey papers would in both cases be altered and the land recorded as wet land with the appropriate assessment. This course involves no hardship and obviates all confusion and possible fraud. If once it is systematically recognized that deductions may be made in the survey assessment as recorded in the "Akar Band," or survey assessment roll, on the pretext of water not having been used in any particular survey number in any single year, the regulation of these remissions of assessment will very soon get beyond all control and much fraud and loss of revenue result.

5. In the Bombay Presidency the system of water assessment, fixed bythe Survey on old irrigated land, is just the same as in Mysore, and not the least difficulty has ever occurred; new irrigation is allowed water-supply permitting on payment of assessment as irrigated land; but no provision for occasional irrigation or remission for occasional non-irrigation has ever been entertained or indeed proposed excepting in regard to those irrigated lands which are directly managed by the Irrigation Department in which the area irrigated is measured up annually.

Minute by the Chief Commissioner.

I intended in my former order to lay down the general principle to be observed in these cases, and I am still inclined to adhere to it.

2. It must be observed that it is not intended or proposed to interfere with lands already classed as "Wet" in the survey, but only with lands classed as dry.

3. It is stated that all lands which can be irrigated, though not actually under irrigation at the time of the settlement, and those lands which the ryots wish to bring under irrigation, are, if the capabilities of irrigation be undoubted, classed as wet, and only such lands as cannot be regularly supplied with water (though under command of irrigation works) without injury to lands already irrigated, are classed as dry.

4. The Survey Department now propose that these dry lands, if they require water at any time even for a dry crop, should get such water only on the condition of their being permanently classed as wet, the precarious nature of the water-supply being met by a low rate of wet assessment. I see great objection to this course. Its effect would, I think, be (1) either to disallow altogether occasional irrigation to dry crops when in bad seasons they might thus be saved with public benefit and without injury to other irrigated lands, or (2) to force the lands to be brought under paddy cultivation thereby crippling the supply of water to other lands. When the lands are classed as wet, however low the assessment, the ryot will seek to raise a paddy crop and there would be difficulty in apportioning the water between these lands and those already irrigated. It is not desirable thus to force the extension of paddy cultivation which consumes so much water. The true test seems to me to be that laid down in my order. If there be a sufficiency of irrigation or moisture in the land, the ryot is sure to grow paddy on it, and then it can be fairly charged with a permanent wet rate according to the character of its irrigation. If the ryot prefer to continue to grow a dry crop on it, the survey having also classed it as dry owing to the known insufficiency of water for its irrigation, it is advantageous alike to the Government and to the ryot, to permit him to continue such dry crop cultivation, giving him water in occasional years if desired and available, subject to a water-rate.

5. Water is thus better economized and proves more productive.

6. I would not change the classification even if the land were cultivated in an exceptional year with paddy. The water-rate would of course be higher for paddy cultivation than for an occasional watering of a dry crop; and water for such dry lands could be obtained only on the permission of the village officials, who should give due regard to the interests of the holders of the regular wet or irrigated lands. I can see no great difficulty in carrying out this arrangement, nor any special opening for fraud in it. These lands, classed as dry by the Survey Department, are scarcely likely to be interspersed with the wet lands. They would, or should, form separate blocks below and beyond the ordinary irrigated area and at too great a distance usually for ordinary irrigation, or on either side of the irrigated area, and irrigable only at a high water level.

7. The irrigation of such lands could at best be but occasional, and, as the holders of the ordinary irrigated land would naturally grudge it, such irrigation could not well be had without payment of a water-rate.

8. An annual inspection of lands is and must continue to be made by village officers for this and other purposes.

9. The remission of assessment on wet land when not irrigated is a distinct question.

10. A partial remission of the wet assessment, or the levy of the highest rate of dry assessment, will be necessary when the wet lands are totally unirrigated and uncultivated owing to failure of water and not to any fault of the ryot. But this must be restricted to exceptional seasons of failure, and rules are easily framed on the subject.

J. D. GORDON,
Chief Commissioner.

No. 7005—75, DATED BANGALORE, 23RD NOVEMBER 1878.

ORDER THEREON.—The Chief Commissioner considers that in this, as in other cases where water is supplied to lands in inam villages by irrigation channels constructed by the Government, an uniform rate of Rs. 4 per acre should be levied, and directs that the inamdars at Machivalalu be informed of these terms, which will of course not include the cost of constructing the permanent sluices.

2. This cess will, however, be subject to such revision as may be found necessary hereafter on the advent of the Survey Settlement, and the apportionment of the water rate on channel irrigated lands.

3. With regard to the objection urged to the payment of the rate by some of the inamdars in the present case, the Chief Commissioner observes that there is no reason why the inamdars, though responsible for the payment, should not require their ryots to contribute towards it, in proportion to the benefits that they will derive.

4. The exchange of land with the Amrut Mahal Department proposed by the Deputy Commissioner should be reported for the orders of the Chief Commissioner.

1. Docket No. 228—55, dated 18th June 1878, from the Commissioner, Nagar Division.
2. Do No. 190, dated 24th September 1878, from the Commissioner, Nundydroog Division.
3. Do No. 585—170. dated 5th November 1878, from the Commissioner, Ashtagram Division.

No. 6962—REV. 49, DATED 23RD NOVEMBER 1878.

ORDER THEREON—In para 2 of this Office Proceedings No. 11275—R. 63, dated 22nd March 1878, it was pointed out that in the statements shewing alienations of land authorized in the several Districts from 1873—74 to 1876—77, neither the estimated yearly rent nor the market value was given for 1,525 acres, 15 guntas and 77 yards; and the Commissioners of Divisions were requested to submit supplemental statements supplying the omissions.

2. From the statements now submitted with the dockets read above, (an abstract of which is appended), it is observed that for 111 acres, 11 guntas and 57 yards the required particulars are forthcoming. There remain 1,414 acres, 4 guntas and 20 yards of land alienated in the Túmkúr District, and with regard to 1,413 acres and 2 guntas of this area, it is explained that this extent which was made over to the Forest Department for the extension of the Devaraydurga State-forests consisted of unassessed and unculturable land allotted as free grazing. Another piece of land measuring 1 acre, 2 guntas and 20 yards, which was granted to the Reverend T. Hodson, as a building site on the summit of the Devaraydurga Hill, is also unassessed land.

3. Ordered, that a copy of these Proceedings together with the Supplementary General Abstract Statement, be submitted to the Government of India, with reference to their letter No. 82 R., dated 26th September 1878.

Proceedings of the Chief Commissioner of Mysore, Financial Department, 4th November 1878.

READ—

Letter No. 34, dated 11th October 1878, from the Director, Government Gardens, submitting Budget Estimate for the Lal-Bagh for 1879—80, for orders.

No. 6020—FINL 255, DATED 4TH NOVEMBER 1878.

ORDER.—The Chief Commissioner observes that it is proposed by the Director of Government Gardens, in accordance with the instructions communicated in this Office No. 4788—192, dated 21st September 1878, to effect reductions in the Lal-Bagh Budget expenditure under the marginally denoted heads.

I.	Servants ...	1,464 0 0
II.	Purchase of Plants and seeds, and experimental cultivation ...	200 0 0
III.	Contingencies, and Construction & Repairs	1,500 0 0
IV.	Menagerie ...	1,700 0 0
		Rs. 4,864 0 0

2. These proposals are approved with the following modifications:—

(1). Of the 2 Clerks employed in the Office of the Superintendent, one may be dispensed with. A single Clerk on Rs. 20 per mensem must suffice to aid the Superintendent.

(2). It will be practicable to continue the employment of a gang of prisoners at the garden, and a still further reduction in the number of gardeners is therefore quite feasible.

(3). The sum of Rs. 1,000 now provided for experimental cultivation and for the purchase of English seeds and plants should be reduced to Rs. 600.

(4). Under the head of contingencies, no provision is necessary, and under that of construction and repairs, Rs. 500 only can be allotted for the ensuing year.

3. Colonel Pearse's proposal to communicate with the Secretary of the Regents Park, Zoological Society, as to the disposal of the animals in the Menagerie, is approved. The Travancore Government will be asked whether they are willing to take over the rhinoceros and on what terms.

4. With regard to the half-yearly Flower and Fruit Shows, the Chief Commissioner wishes it to be understood at once that he can offer no prizes for 1879.

5. Mr. Gordon does not consider that enough has heretofore been done in getting an income from the garden, which, if energetically worked, ought to be made self-supporting. Mr. Cameron should increase his efforts to this end, and the Chief Commissioner confidently expects that the result will be a larger profit than that anticipated, *viz.*, Rs. 3,000. Under existing circumstances the main object to be kept in view is to render the garden more remunerative, without depriving it of its other attractive features.

6. The present term of Mr. Cameron's engagement will expire on the 20th January next. The Chief Commissioner will be willing to retain his services for another year on the same terms. His further retention must depend on the results obtained in the working of the Garden.

7. The Budget Estimates are herewith returned for revision in accordance with these orders.

RESOLUTION..

With the sanction of Her Majesty's Secretary of State for India, the Governor General in Council is pleased to declare that the cholera registers prescribed by the orders, dated 8th September 1870, are no longer required; and to direct that, in lieu thereof, the accompanying simple statement be substituted.

This register, which is to be invariably used as an accompaniment to every report on cholera, should shew distinctly—

(*a*) the corps or jail to which it refers;

(*b*) the strength, at the commencement of the outbreak, of men, women, children, and followers [or the number of prisoners, guard and other establishment];

(*c*) the number of barrack, or name of the camp, from which each case was admitted;

(*d*) the name of every person of any of the above classes attacked in *chronological* order;

(*e*) the name of the reporting officer.

2. The report to which this register is to be annexed should be arranged in the following manner:—

Report on cholera in ——— in the month of ——— 187 , dated ———
by Surgeon ———

SECTION A.—*Details of outbreak.*

(1.) The circumstances attending first case; any fatigue or exposure to weather or excess of any kind connected with it; had the person first attacked lately been in any place where cholera existed?

(2.) If the first case was in a patient already under treatment in hospital, how long under treatment, and for what disease?

(3.) Dates and other particulars of any suspicious case or cases not entered in the register?

(4.) The occurrence of previous cases in the bazars, city or neighbourhood generally.

(5.) How many towns and villages are there within ten miles of cantonment; how many of these returned cases or deaths from cholera, and on what date was the first death returned in each?

(6.) Any prevalence of diarrhœa before or during the outbreak, the number of such cases treated within given dates, not only in hospital, but also by receiving medicine outside?

(7.) The number of buildings occupied by men and families? The number of these which furnished cases?

SECTION B.—*Meteorology.*

Any peculiarity noted in the atmospheric phenomena, such as the force and direction of the wind, unusual stillness of the air, the amount of rain, occurrence of storm with thunder and lightning, &c.

SECTION C.—*Evidence of contagion.*

(1.) Could the first case be traced to importation; or could any connection be established between the first case and those which occurred afterwards? If so, detail the facts.

(2.) How many individuals, including medical and other officers, hospital assistants, orderlies and others, both Europeans and Natives, attended on the cases of cholera which occurred, and of these how many were attacked with cholera, and on what dates? Of the sweepers employed in collecting and removing cholera excreta (who should also be included in the above), how many were seized with cholera? Were the circumstances connected with any of the attacks such as to lead to the conclusion that they were due to such attendance? If so, what were they?

SECTION D.—*Sanitary defects.*

Any defects noted in drainage, water-supply, conservancy, accommodation, &c.

SECTION E.—*Results of movement.*

(1.) Details to be shewn in tabular statement as follow:—

1	2	3				4				5	6	7	8			9
Number of party.*	From what barrack moved.	Number of occupants in this barrack.				Strength of party removed.				Date of removal.	To what place moved.†	Number of cases in this party before removal.	Number of cases in this party after removal.			Date of return to quarters or of further removal to another camp or other place.
		Men.	Women.	Children.	Total.	Men.	Women.	Children.	Total.				Within 24 hours after removal.	After 24 hours after removal.	Total cases after removal.	
1

3																
											Total...					

(2.) If movement unsuccessful, are there any special circumstances which seem to account for this result?

(3.) Effect of removal on the general health of the party.

SECTION F.—*Information or opinions not included in the above.*

N. B.—*Sections A to E, inclusive, should be strictly confined to a statement of facts, and should contain no opinions.*

* When the same party make two or three moves, they should be distinguished by the repetition of the same number in the first column.

† If to camp, name of place where camp pitched.

3. In preparing this report, attention should be given to the following points :—

(*a.*) The replies under each head should be complete in themselves, and not confined to "yes" or "no" without reference to the point which is in question.

(*b.*) Even when only one case of cholera has occurred, the report (and register also) should be prepared exactly according to the form prescribed.

(*c.*) At the close of the outbreak, or, if the disease has been limited to an isolated case or cases, at the close of the year, the register and report should be forwarded, through the prescribed channel, with as little delay as possible.

4. It is very desirable that these forms of registers and reports should be adopted throughout India. The present register was generally ordered, so that the change in it should be as generally introduced. Local Governments and Administrations will be requested to adopt the forms now prescribed with reference to all cholera cases in jails and lunatic asylums, and to direct the Civil authorities to assist in collecting the information called for in section A, paragraphs 4 and 5, and to communicate it to the Military authorities; and the Military Department will be asked to issue similar instructions in respect of the troops both European and Native, in the three Presidencies.

ORDERED, that a copy of this Resolution, and of the appended form of register of cholera cases, be forwarded to Local Governments and Administrations; to the Military Department, for communication to the Surgeon-General of Her Majesty's British Forces, if thought fit; to the Surgeon-General, Indian Medical Department; and to the Sanitary Commissioner with the Government of India, for information and guidance.

The Surgeon-General, Indian Medical Department, in communication with the Local Governments and Administrations and with the Surgeon-General, Her Majesty's British Forces, will arrange for the printing and issue of books of registers required. Each book should contain from 5 to 10 or 12 leaves, which can be used and cut out for transmission as required. At the commencement of each book a copy of this Resolution should be printed for the information and guidance of the medical officer in the preparation of both Register and Report.

No. 2549-61—D.-F. 591, dated Bangalore, 21st November 1878.

Order thereon.—The Commissioner, Nagar Division, submits for orders the question, whether the Deputy Commissioner, as President of the Local Fund Committee, has power to grant leave to Assistant Surveyors drawing Rs. 50 per mensem and under.

2. The Chief Commissioner observes that para 52 of the Appendix to the Subsidiary Rules for the administration of District Funds provides that "no Surveyor can be appointed excepting under the Commissioner's sanction, approved of by the Local Administration, and nominations for these posts must invariably be accompanied by a certificate of fitness from the Executive Engineer, &c." Applying to this, the Civil Leave Code Rule, Section 17A, Supplement F, the authority to grant leave to such officers would be the Chief Commissioner, the power of granting privilege leave being delegated to the Commissioners of Divisions.

3. By this Office order No. 1203—D.-F. 642, dated 20th July 1877, the Commissioners of Divisions were authorized to grant privilege leave to District Surveyors, and the Chief Commissioner considers that the terms of this order apply equally to Assistant Surveyors.

4. The authority of the Chief Commissioner will be requisite in the grant of all other descriptions of leave applied for by Surveyors of both grades.

Letter No. 1823 P., dated 30th August 1878, from the Secretary to the Government of India, Foreign Department, Simla, communicating the orders of the Governor General in Council upon the proposed reductions in the Military Establishments of the Mysore Province.

No. 6585—MIL. 52, DATED 18TH NOVEMBER 1878

Minute by the Chief Commissioner.

I was reluctant to recommend any reduction of the Siledar Force after the large reduction it had lately undergone, but having regard to the severe financial necessities of the Province I felt constrained to advocate a temporary reduction of the strength of the three Regiments proposed by the Sub-Committee whereby a saving of Rs. 74,000 would have been effected. The Government of India do not approve of this reduction, and it will not therefore be carried out.

2 The other reductions proposed in my Memo and now approved by the Government of India must be carried into effect as soon as may be practicable. They were based for the most part on the proposals of the Sub-Committee, of which the Military Assistant was a Member.

3. As regards the Barr, the Sub-Committee proposed the reduction of three out of four Regiments substituting armed Police guards for the Taluk and District Treasuries and Jails, except at Bangalore and Mysore, and defraying the cost thereof by a corresponding reduction in the present strength of the Police Force.

4. The practicability however of any such immediate reduction in the Police which has recently been carefully organized appeared to be somewhat doubtful, and such reductions where feasible might perhaps be required for improving the Police in other respects. Moreover a Military guard, even if the men composing it were not of a high order of soldier, seem better suited for the protection of Public Treasuries at remote Taluk Head-quarter stations, both as regards discipline and the moral effect on an ignorant and lawless population.

5. I therefore proposed the reduction of only two Regiments intending that the remainder should be used almost entirely for guard and escort duties, and believing that they might be made to suffice for the purpose by a more economical arrangement of the guards.

6. The 7 Districts (if Kadur be absorbed) and 69 Taluk Treasuries would require at the rate of two for the former and one for each of the latter, a total of 83 guards. The remittances of taluk treasure should as heretofore be escorted by Military guards. Escorts for district treasure or for prisoners in special cases only, may

be provided from the Reserve Force at District Head-quarters. But prisoners should ordinarily be escorted by the Police alone.

7. The District Jails with the exception of those at the three Divisional Head-quarters will be converted into lock-ups with Police guards provided out of the existing Police Force. The larger jails at Divisional Head-quarters need not have more than two guards each for protection in case of emergency—if, as seems practicable, the main details of guarding can be provided for by an armed Police placed under the orders of the Officer in charge of the Jail, as is done elsewhere in India.

8. Adding 3 guards for Government House and 2 for Military Assistant's Office and Stores, the total number required would amount to 94.

69 Taluk Treasuries	..	69
7 District ,,	...	14
3 Divisional Jails	...	6
Government House	...	3
Military Assistant's Office and Stores	...	2
		94
About 50 per cent Reserve ...	...	46
Total Guards...		140

9. Allowing a reserve of 50 per cent for reliefs, general escorts, &c., at each District Head-quarters, the total Military Force required may be estimated at 140 guards, which two Regiments can furnish.

10. This however might prove too heavy a strain on the force, and in view to provide also for other work, and if need be for the guarding of Divisional Jails entirely by the Military, I would not for the present urge the reduction of more than one Regiment.

11. The above is avowedly a liberal estimate, for I am of opinion that in very many taluks a Military guard need not be retained, and that in others a much reduced guard will suffice.

12. It is chiefly in out-of-the-way and border taluks that a picked Military guard will be required. It can only be after careful local enquiry that a satisfactory and precise conclusion on these details can be come to. After the reduction of one Regiment, which should be made at once or with as little delay as practicable, it may be determined whether further reduction is not practicable, and to what extent. Possibly it may be found convenient after the reduction of one entire Regiment to make further reductions by reducing the strength of each of the three remaining Corps.

13. The remaining three Regiments might then be distributed as noted below :—

1 Regiment for Bangalore and Kolar with 19 taluk stations, but with larger requirements at Bangalore.

1 Regiment for Shimoga, Túmkúr and Chitaldroog, with 24 taluk stations.

1 Regiment for Mysore and Hassan (including Kadur) with 26 taluk stations.

The Commandants could be stationed at Divisional Head-quarters and the Risaldars with a smaller portion of the Reserve Force at other District Head-quarters. This may require an additional Risaldar for the Shimoga Regiment.

14. The Commandants and Risaldars may be further utilized for superintending the drill and quasi-military discipline of the Police Force at the several District Head-quarters.

15. I trust that with the existing vacancies in the Police Force, and with other vacancies that may be found feasible, and also by the pensioning of inefficient men, the reduction of one Regiment of Barr may be carried out at once and without charge on account of gratuities.

16. The Palace Barr Force may take some 50 select men (a greater proportion of Hindus, the Muhammadans in that force already predominating) to fill existing vacancies and others that may be caused by pensioning of inefficients.

17. Orders may be issued after due notice given to the Departments concerned, for the withdrawal of Military guards from other than the above-mentioned duties, namely, from District Jails not at Divisional Head-quarters, from Munsiffs' Courts, from Treasuries of Executive Engineers and from any other such offices to which such guards may now be furnished. 1st January 1879 will perhaps be a reasonable date to fix for the withdrawal of such guards.

18. By the reduction of one Regiment for the present, the saving would be Rs. 66,000 instead of Rs. 1,32,000, under this head.

19. Reductions will be necessary also under other heads, *viz.*, Military Assistant's Establishments, Military Stores, construction and repairs, &c., but these will be separately dealt with hereafter.

20. I shall be glad if the Inspector General of Police, the Deputy Accountant General and the Military Assistant will take the views and directions contained in this Minute into immediate consideration. It will be desirable, I think, that after consultation between these officers the Military Assistant should proceed to each District, and in communication with the District Officers and the Superintendents of Divisional Jails come to a conclusion and report the extent to which the Police can be reduced so as to provide for men of the Barr, how far their present allocation can be modified so as to admit of their furnishing guards, and what provision of guards will suffice for the wants of the Jail and Treasuries. To save delay the arrangement for each District may be separately reported as completed. As our financial needs are pressing, every effort must be made to reduce the guards to the lowest limit compatible with efficiency. The District Officers should be so informed.

16*th November* 1878.

Chief Commissioner.

ORDER.—The following are the numbers of orphans in the Province according to most recent returns :—

	Orphanage.	No.	District Total.
Bangalore District ..	... Palace Orphanage	221	
	Pettah Relief Camp	281	
	Mr. Lee's	60	
	Wesleyan Mission	103

	Total.....		3,001

2. There are thus 689 orphans still in the hands of Government, but the following statement, giving the total number the Chief Commissioner authorizes each institution to receive, will shew how this number can be absorbed :—

Orphanage.	Authorized Complement.	No. already made over.	No. that can be taken.
Mr. Lee's, Bangalore	60	60	...
Rai-Bahadur A. Narrainsawmy Modaliar's, Bangalore ...	100	91	9

Do Hassan	200	121	79
Miss Anstey's Orphanage, Kolar...	800	586	214
Total.....	3,180	2,312	868

3. There may be a few weakly or crippled children whose charge will devolve entirely on Government, but for those retained by the several orphanages, Mr. Gordon is prepared to recommend the following State-aid.

4. *Rai-Bahadur Arcot Narrainsawmy's Orphanage and Mr. Lee's Weaving Establishment.*—These institutions have 151 orphans who are being instructed in useful industrial arts. The authorized monthly capitation grant will be paid for these orphans for such term, not exceeding two years, as they remain in these institutions.

5. *Miss Anstey's Orphanage, Kolar.*—There are now 586 orphans in this institution and 214 more will be given. Miss Anstey does not want the Government allowance, and it is understood that provision for their maintenance and education and for their eventually settling down in some useful occupation will be made by private charity.

6. Two thousand two hundred and twenty orphans will be distributed as follows among the Missionary bodies :—

Roman Catholic Mission	1,650
Wesleyan	520
London Mission	50

7. The Government would pay on account of these orphans the sanctioned capitation allowance (Rs. 2 per head per mensem) in full for 1879 and 1880. With the help already given these institutions will then have received a very material proportion of the maintenance of the inmates for 3 years, besides considerable grants towards buildings. Further continuance of this allowance will be an unduly heavy charge upon the revenues of the Province.

8. But it is highly desirable in the interests alike of the orphans and of the Government, that these children should be enabled eventually to settle down as independent agriculturists. With this aim in view, the Government will at once place the different Missionary bodies above-mentioned in possession of an extent of land in wholly deserted villages, in as compact a shape as possible, and calculated to be sufficient for the future maintenance of the orphans when eventually they should be established as independent cultivators.

9. It is understood that "Dry" land is generally available for this purpose, but wet land in healthy localities where available will also be given. It is undesirable to give more land than will be cultivated, or less than what would fairly suffice.

10. The lands should be given in accordance with the following rules and subject to the following conditions:—

A. Dry land at the rate of 2½ acres on an average for each orphan will at once be given to the different Missionary bodies. This extent of land is regarded as sufficient for the maintenance in comfort of an adult person actually engaged in the cultivation of it, and paying to Government the full land tax.

B. Any wet land available in a compact block with the dry land will also be given at the rate of only one acre for each orphan, instead of the two-and-a-half acres of dry land.

C. The land thus given will be in entirely deserted or depopulated villages, of which it is understood a sufficient number is available. The villages selected for each Missionary body should be as contiguous to one another as possible. The lands given may be either such as have recently been under cultivation, or waste arable land, or partly the one and partly the other. In the selection of villages and lands the views of the different Missionary bodies concerned will be consulted, and, as far as may be possible, acted upon, provided that the villages or lands are unoccupied, and that no other occupants are forthcoming.

D. The terms of the grant would be as follows.—

(a) Recently cultivated lands.

First two years.	Free.
3rd year..	¼ tax.
4th „	½ „
5th „	¾ „
6th „	Full tax.

(*b*) Lands long uncultivated or immemorial waste.

First four years.				Free.
5th year	..	..	..	¼ tax.
6th „	..	..	..	½ „
7th „	..	..	..	¾ „
8th „	..	..	..	Full tax

E. The Missionary bodies receiving the land must on their part undertake as follows .—

1st. To have the lands at once brought under cultivation, and to continue to cultivate them through their own agency till the orphans are set up as independent agriculturists.

2ndly. It being expected that orphan boys will generally marry orphan girls, each married pair should be given. :—

(*a*) 5 acres of "Dry" land, or 2 acres of wet, or a due proportion of both kinds of land, the land being registered in their own names

(*b*) a pair of plough bullocks.

(*c*) a small mud-house.

3rdly. Orphan boys not marrying orphan girls and orphan girls not marrying orphan boys should each get, on attaining the age of 18 years, 2½ acres of dry, or one acre of wet, land registered in his or her name.

4thly. At the expiry of two years Government will enquire into the number of orphans in the charge of each Mission, and the aggregate extent of land in the possession of the Mission will be liable to be reduced to the extent required for the then existing orphans, provided, however, that lands actually brought under cultivation by any expenditure of capital will not be resumed, and provided further that the Mission will be allowed to retain possession of land in excess of requirements if it undertakes to pay the full land tax demandable, instead of fractions of it only under the original grant.

5thly. If, at any time during minority, the parents or other natural guardians claim possession of an orphan, he or she shall be forthwith surrendered.

11. Mr. Gordon believes that these terms are fair, but he has no wish to press them upon those who have come forward to support the orphans. If, then, at the expiry of the term for which capitation is granted, or before then, any proprietor of an orphanage finds himself unable to continue under the terms offered, Government will be quite ready to take back the orphans in his charge.

12. Deputy Commissioners are authorized to sub-divide survey numbers into the requisite number of "recognized shares" in order to give effect to these orders.

13. Applications for land under these rules will be received up to the 30th April next, but, as above stated, entry will be given at once, and the Missionary Institutions, on being put in possession of the land, may begin cultivation without waiting for the commencement of the next revenue year; notwithstanding which the term of their occupancy will be calculated, in respect of the progressive rate, from the 1st April 1879.

MYSORE CHIEF COMMISSIONER'S OFFICE,
FAMINE DEPARTMENT,
Bangalore, 23rd November 1878.

From

The Addl. Secretary to the Chief Commissioner of Mysore,
Famine Department.

To

The Addl. Secretary to the Government of India,
Foreign Department,
CALCUTTA.

SIR,

Adverting to para 3 of Mr. Under-Secretary Plowden's letter No. 1835 of the 10th July last, I have the honor to report, by desire of the Chief Commissioner, for the information of the Government of India, upon the provision made and proposed for the future maintenance of famine orphans in Mysore and Coorg.

2. I am directed to forward a copy of Proceedings of Chief Commissioner's No. 3675 of the 22nd instant which give in detail the numbers and distribution of orphans and the terms offered to the several institutions maintaining them. The information contained in the same may be summarized thus.

3 There are now 3,001 orphans in the Mysore Province, of whom 2,312 are in private aided orphanages and 689 in charge of Government itself; but there is more than sufficient accommodation in the orphanages for these children, and they are being made over to the private institutions also.

4. The Government capitation allowance of Rs. 2 per mensem for each orphan will be continued to those institutions which wish to receive it during 1879 and 1880, and in addition to that assistance land will be made over at once to those bodies who intend training children in agriculture on the following favorable terms :—

(*a*) Recently cultivated waste lands—

First two years	.. .	Free.
3rd year ..	.. ..	¼ assessment.
4th ,, .	.. ..	½ ,,
5th ,, .	..	¾ ,,
6th ,, .	.. ..	Full ,,

(*b*) Lands long uncultivated or immemorial waste—

First four years	.. .	Free.
5th year ..	.. ..	¼ assessment.
6th ,, ..	.. ..	½ ,,
7th ,, .	.. ..	¾ ,,
8th ,, ..	.. ..	Full ,,

5. These lands will be given to the Missionary bodies in trust for the orphans, whom they will be bound to put in possession when grown up, giving each 2½ acres of 'Dry' or 1 acre of 'Wet' land, and setting up each married couple with means of cultivation and shelter.

6. The extent of land to be given immediately will also be calculated at the same acreage rate on the number of orphans resident in the orphanages to which the grant is made; and this extent will be liable to reduction if the orphans decrease by deaths, desertions, or other causes, unless the land has been actually brought under cultivation meanwhile, or is paying full assessment.

7. In prescribing the rules and conditions under which grants of land should be made, Mr. Gordon has been guided by certain important considerations, *viz* :—

(1.) Wet land is seldom likely to be available: the cultivation of dry land is always attended with considerable expense, and is generally not very profitable. The land tax on dry land is very light, and its remission is not likely to increase very materially the profit to the cultivator.

(2.) Two essential conditions of the grant are;—firstly, that the lands given should be waste, or relinquished and abandoned by former cultivators; and 2ndly, that the Missions should undertake to bring them under cultivation within a reasonable time, say, two years.

If these conditions are strictly adhered to, the land revenue of the Province will be greatly and permanently benefited by the grant; and if the Missions would accept these conditions in their entirety, Government might even allow an increased extent of land for each orphan, or give more liberal temporary remissions of the land tax.

(3.) It has been said that the orphans will require for their maintenance when they are set up as independent agriculturists, more land than would suffice for them when they are young. This can scarcely be so, because the grown up man and woman would themselves work the lands, as do the ordinary agriculturists of the country; whereas when they are young, the cultivation has to be done chiefly by paid labor.

(4.) It is undesirable that the orphans should be scattered over the Province in detached villages, and the end in view should be eventually to establish them in separate and compact village communities.

8. The above terms on which Mr. Gordon proposes, with the sanction of the Government of India, to afford aid to the orphanages have been communicated to the several institutions; their views on the matter will be ascertained. Mr. Gordon is prepared to receive back any children from those who may decline to continue the maintenance on these conditions; but, at the same time, he believes the terms offered are fair and reasonable, and he does not anticipate any refusals. The Government of India will be informed of the result.

9. Besides the number of orphans given above, there are about 30 in Coorg in charge of the Basel Mission, to these also Mr. Gordon will sanction the continuance of the capitation grant of Rs. 2 per mensem, for two years, if it is applied for.

I have the honor to be,
Sir,
Your most obedient Servant,
W. J. CUNINGHAM,
Addl. Secretary.

TABULAR STATEMENT OF MATTERS OF ROUTINE FOR THE MONTH OF NOVEMBER 1878.

MYSORE.

No.	Subject and Order.	Date of Order.	Date of previous Orders.
	In reply, the Deputy Commissioner, Hassan District, was informed that the list submitted by him shewing the amount realized by the sale of the materials of abolished relief camps in his District has been forwarded to the Deputy Accountant General for information, and he was requested to report anent certain other camps, and informed that the Amildars of Attikuppa and Arkalgúd should render written explanations as to the cause of the delay in furnishing the simple information required of them.	2nd Nov. 1878.	
2	With reference to verbal instructions about the closing of the Kadur Relief Hospital, the Deputy Commissioner, Kadur District, was requested to be present, if possible, at the closing, and informed that those inmates who are seriously ill and willing to go may, as proposed by him, be sent to Shimoga for treatment.—Communicated to the Civil Surgeon, Nagar Division, for information and guidance.	Do do	
3	The progress report of civil relief works carried on in the Túmkúr District during the year 1877—78, was forwarded to the Examiner, Public Works Accounts, for information.	4th do	
4	In reply to the application of Assistant Apothecary Hellien for an allowance for the period he was in charge of the Túmkúr Orphanage, the Deputy Surgeon General was informed that while the Chief Commissioner is willing to recognize the merits of Mr. Hellien, and believes that he deserves credit for working zealously and well, he does not consider that any claim to extra remuneration is thereby established, inasmuch as every public servant is expected to do his utmost as a duty and the Government has a claim to the whole of his time.	Do do	17th July 1878, Part II, Famine.
5	The Deputy Commissioner, Shimoga District, was informed that the bill for Rs. 15—6—10, being the amount of deputation allowance due to Peshkar Puttu Rao, while on Famine Duty in the Honnali Taluk, has been sanctioned and forwarded to the Deputy Accountant General for audit.	Do do	24th Sept. 1878, Part II, Famine.
